PROFILE

I have good experience in manual testing with a strong understanding of software QA methodologies, tools, and processes. I have the ability to create detailed, comprehensive, and well-structured test scenarios and test cases. Skilled in identifying, documenting, and tracking bugs, and working closely with development teams to resolve issues and ensure quality releases. I also have knowledge about python, and currently I am working on python automation

WORK EXPERIENCE

Internship

Spanidea Systems Pvt. Ltd.

2024--Present

Manual Testing :-

During my tenure at Spanidea, I have contributed to testing activities across five projects: Client Management System (CMS), My Cloud, Virtual Server (Sonet), KPC Health, and Jobeze (currently ongoing). Specifically, I authored test cases and test scenarios for CMS, KPC Health, and Jobeze, and conducted regression testing for the Jobeze project.

Python :-

I have also developed skills in Python and am currently expanding my capabilities in Python automation. I have automated several practice websites as part of this learning process.

Pen testing :-

I have also studied about pen testing, and I am passionate about penetration testing (pen testing) and committed to building foundational skills in assessing and enhancing security measures.
